CASE STUDY · CAR SALES

Bright Motors

Driving Sales Performance Through Data

Prepared for the Head of Sales · Junior Data Analyst

Period: 2014-01-01 → 2015-07-21 · 558,799 transactions

Agenda

01 **Executive Summary**
Headline KPIs and what they mean

02 **Revenue by Make & Model**
Where the money comes from

03 **Regional Performance**
Geography of sales

04 **Pricing, Mileage & Year**
What drives selling price

05 **Customer Preferences**
Body, transmission, fuel mix

06 **Trends Over Time**
Monthly revenue and volume

07 **Recommendations**
Actions for the new Head of Sales

Executive Summary

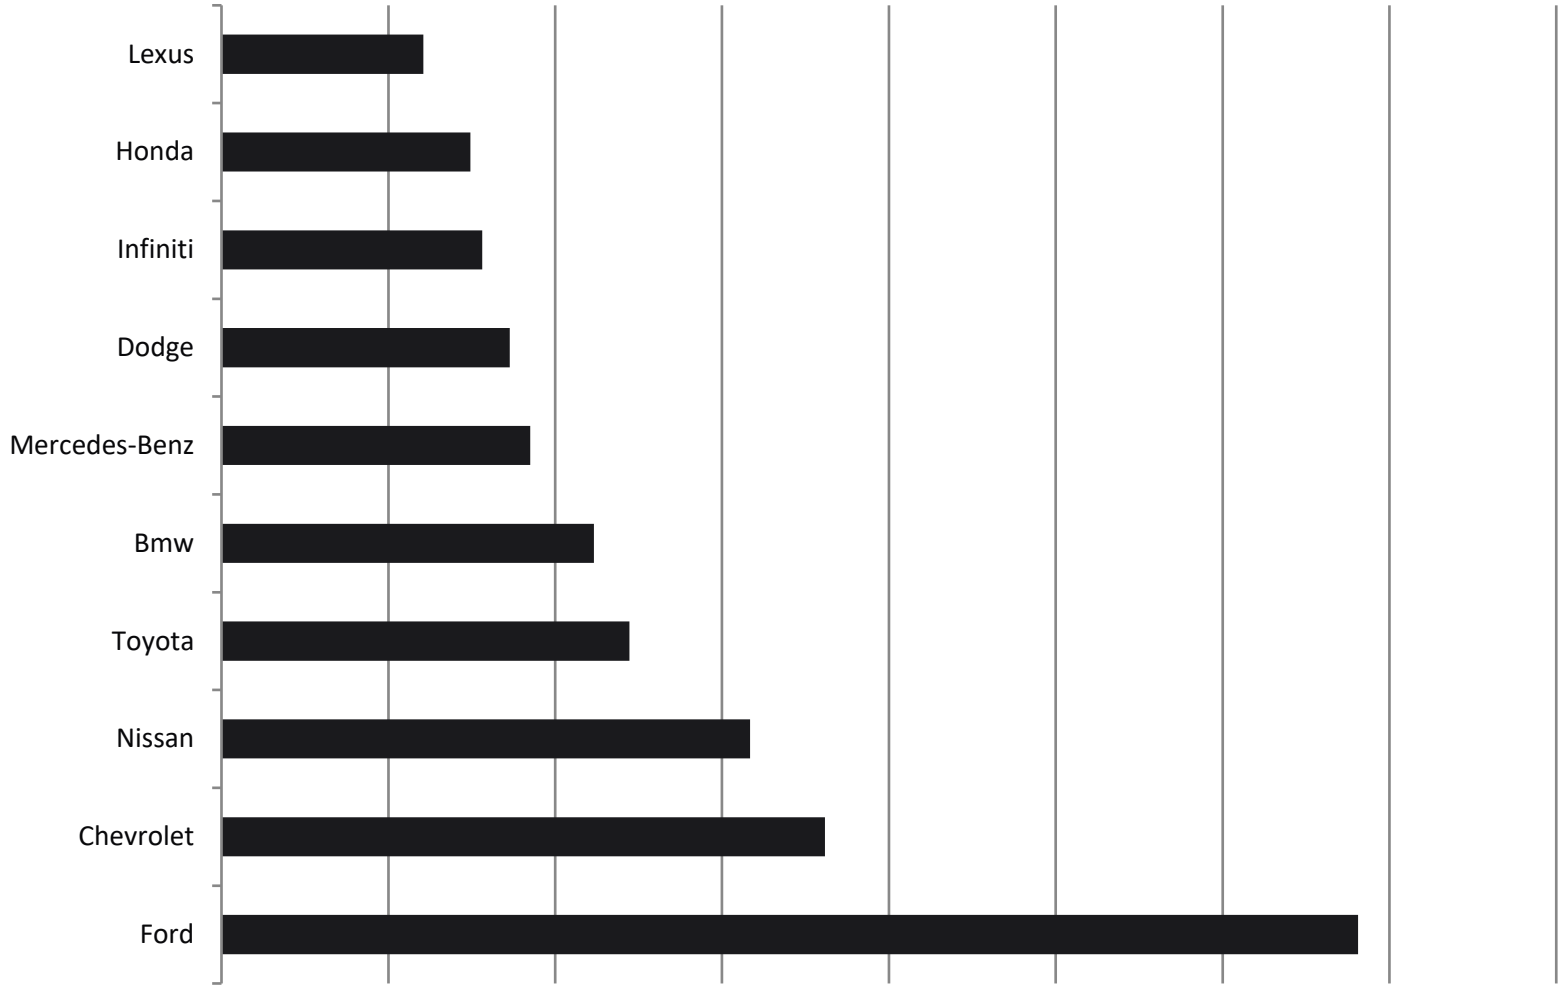
Total Revenue	Vehicles Sold	Avg. Selling Price	Avg. Margin vs MMR
$7.61B	558.8K	$13,611	-15.1%

Headline takeaways

- 558,799 vehicles sold for $7,606,012,287 in total revenue.
- Ford, Chevrolet, Nissan dominate revenue contribution among manufacturers.
- FL is the strongest performing region by revenue.
- **Average margin vs MMR is -15.1% — selling prices trail wholesale benchmarks; pricing discipline is a key opportunity.**

Revenue by Manufacturer

Top 10 makes by total selling price



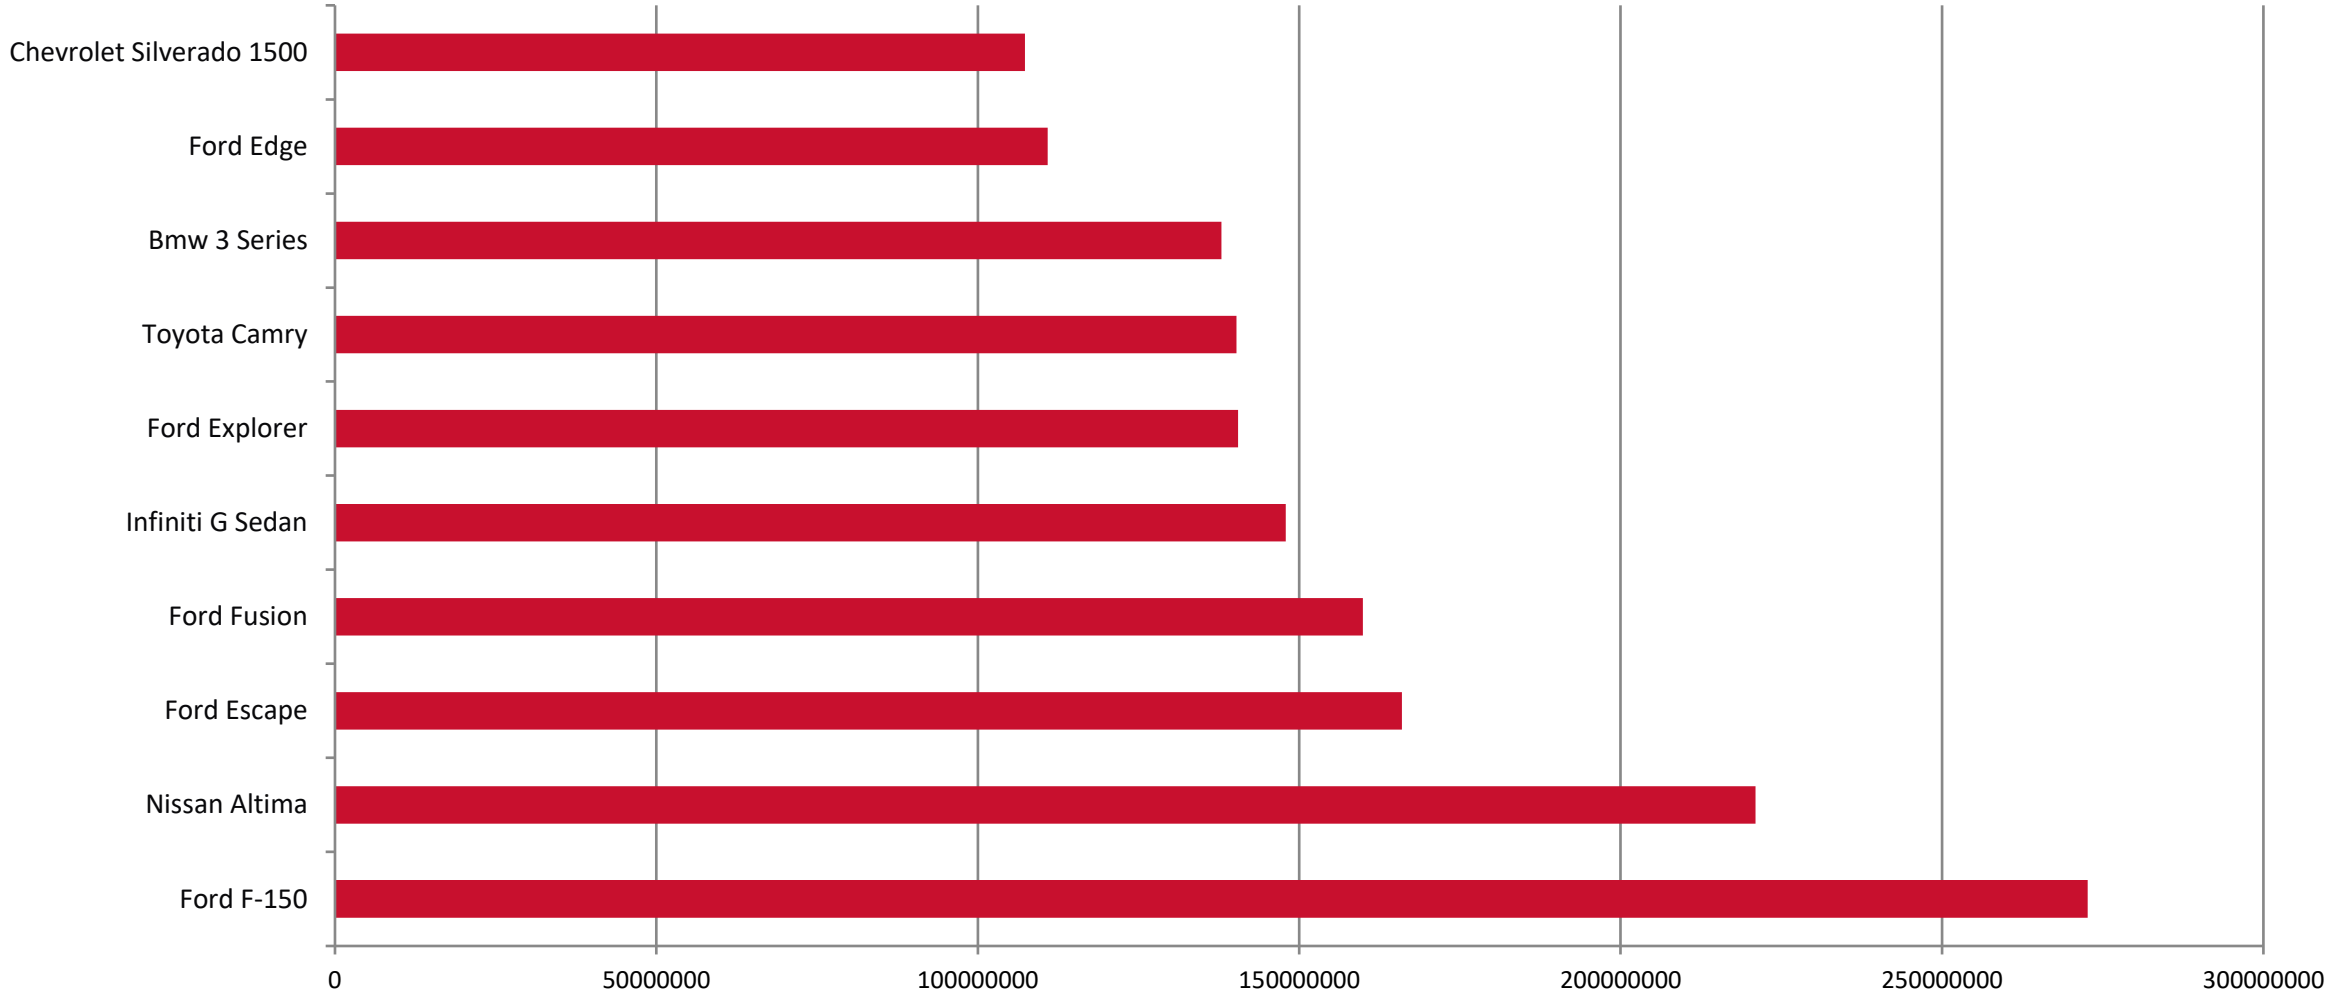
INSIGHT

The top 3 brands — Ford, Chevrolet, Nissan — generate 35.8% of total revenue.

Concentration risk: a small group of brands drives the business. Stocking decisions and dealer training should reflect this.

Top Selling Models

Top 10 model nameplates by revenue



Regional Performance

Top 10 regions by revenue and units sold

Revenue ($)

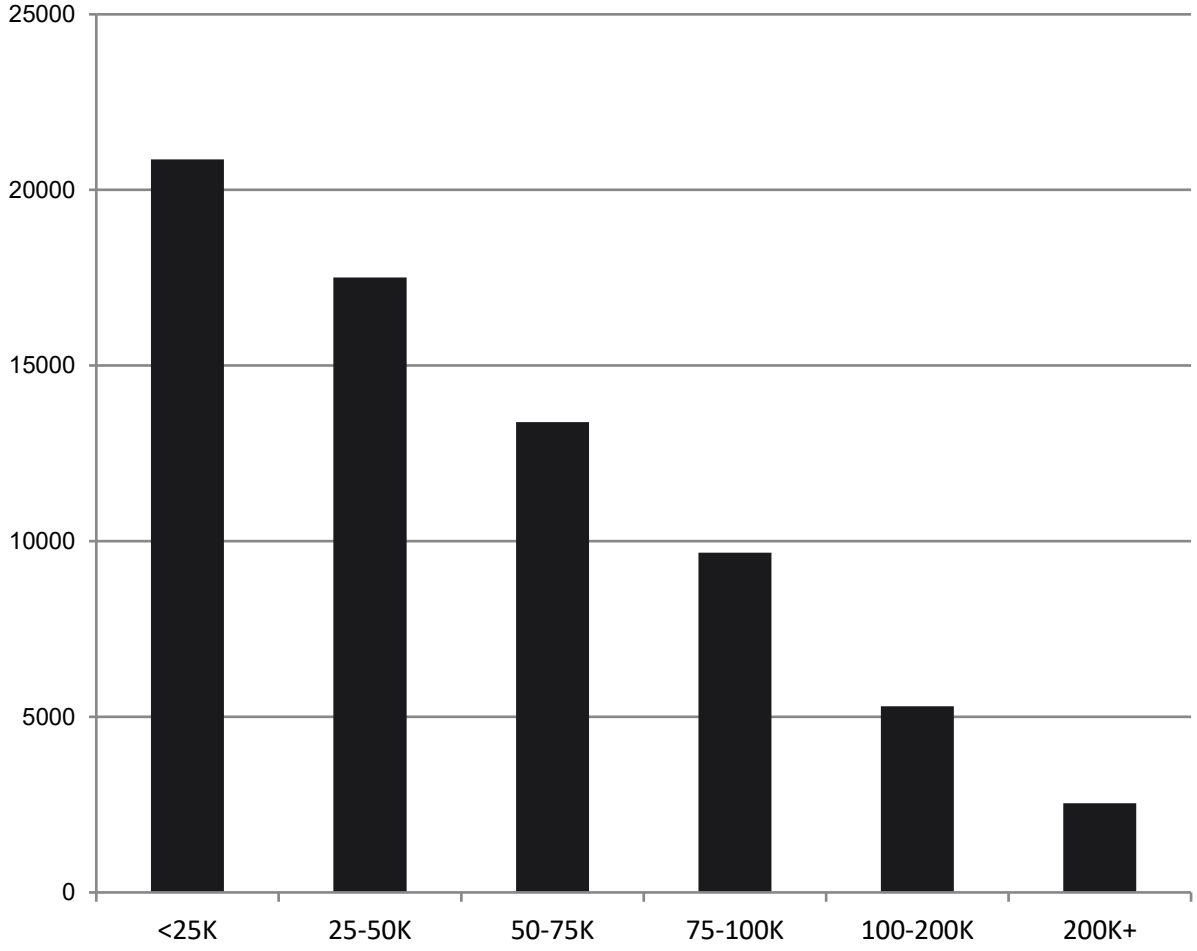
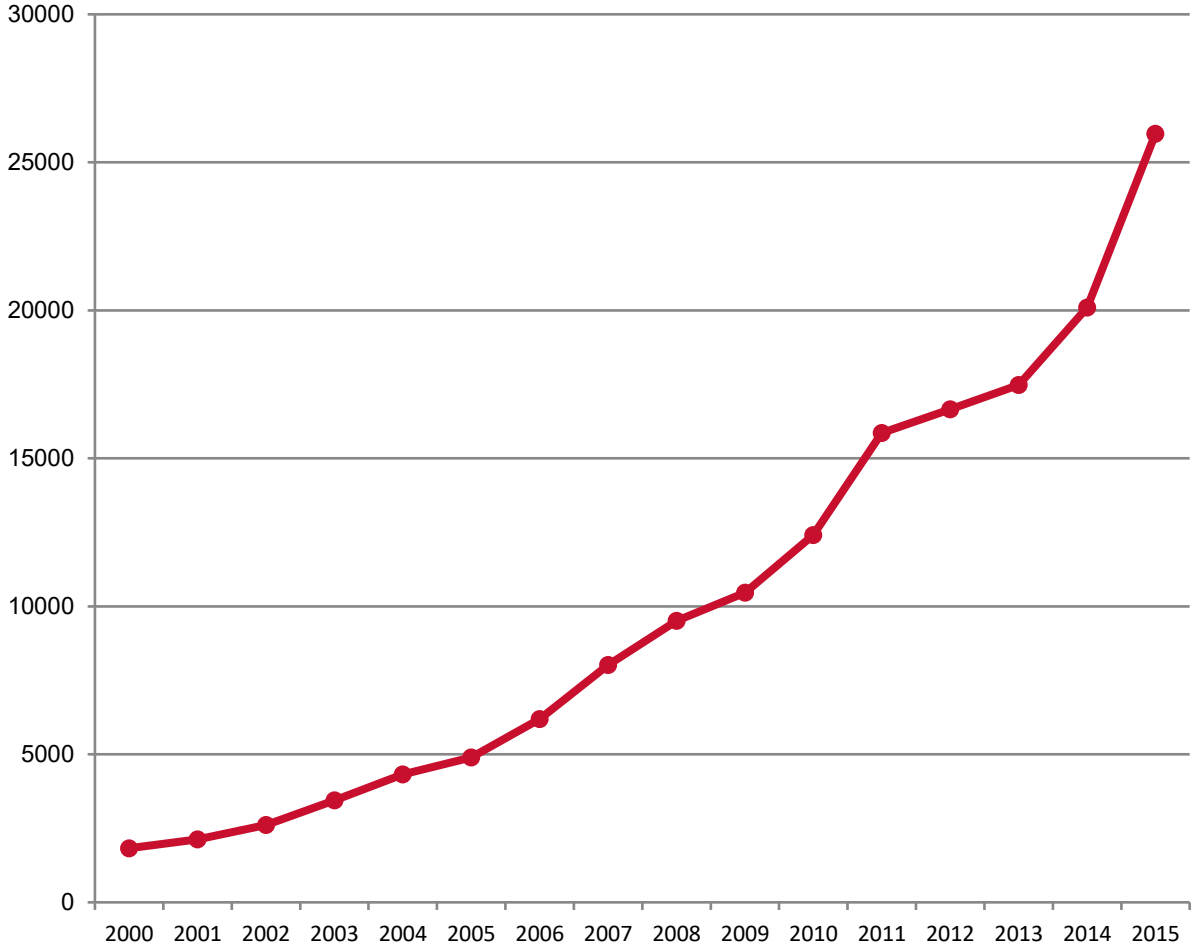
Price, Mileage & Vehicle Age

Average Selling Price by Mileage Bucket



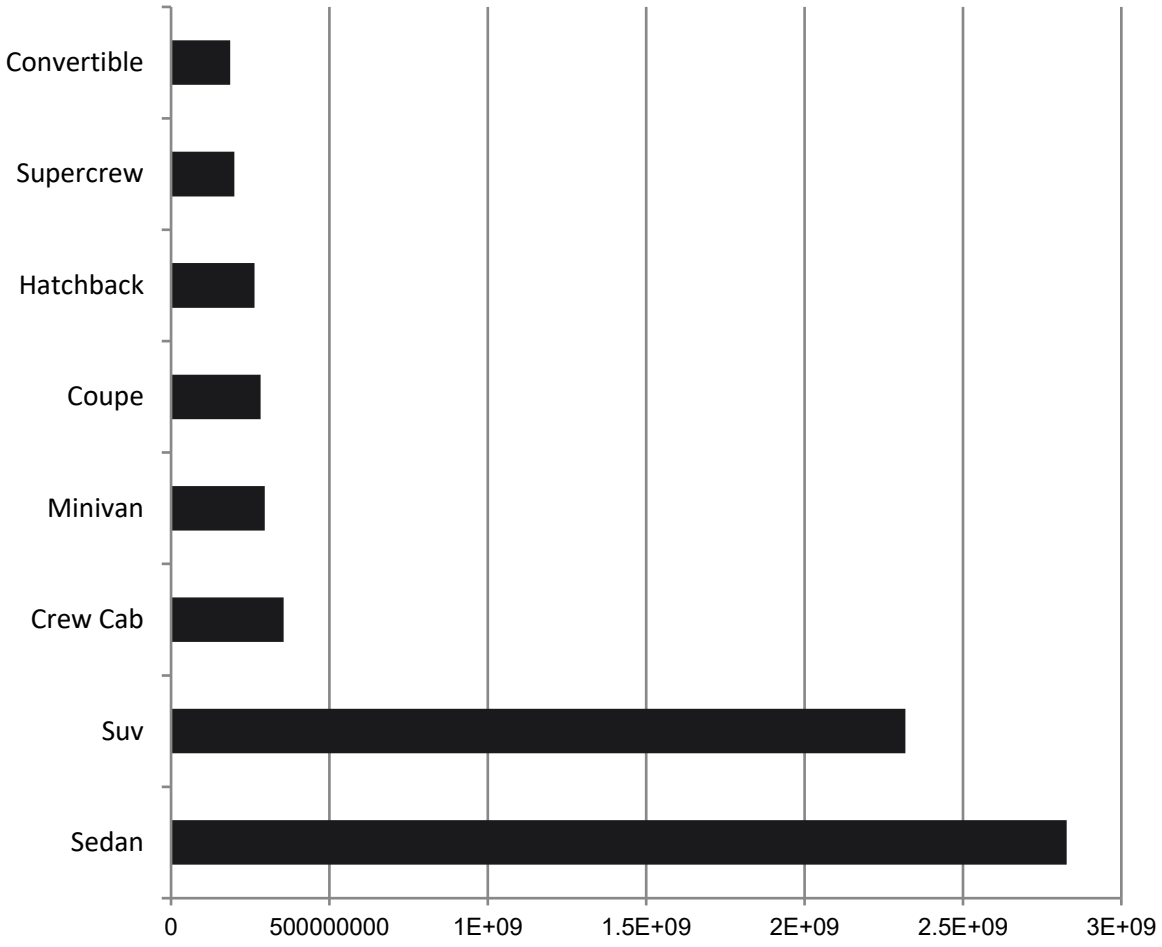
Average Selling Price by Model Year



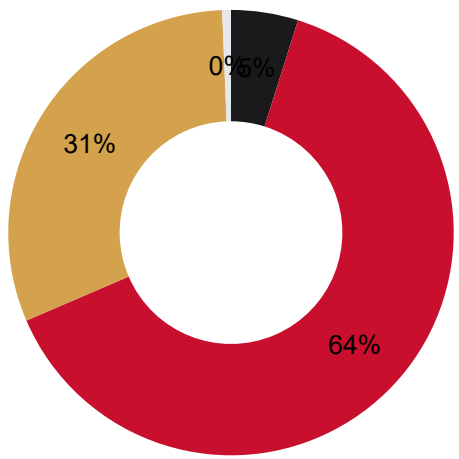
Customer Preferences

What buyers are choosing — body type, transmission and tier

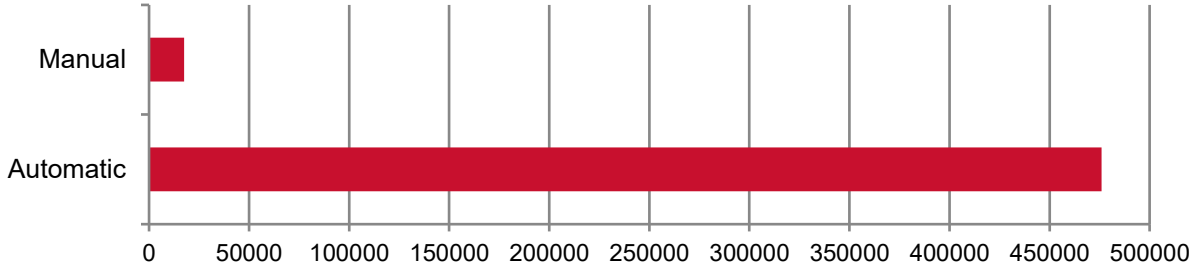
Revenue by Body Type



Performance Tier (units)

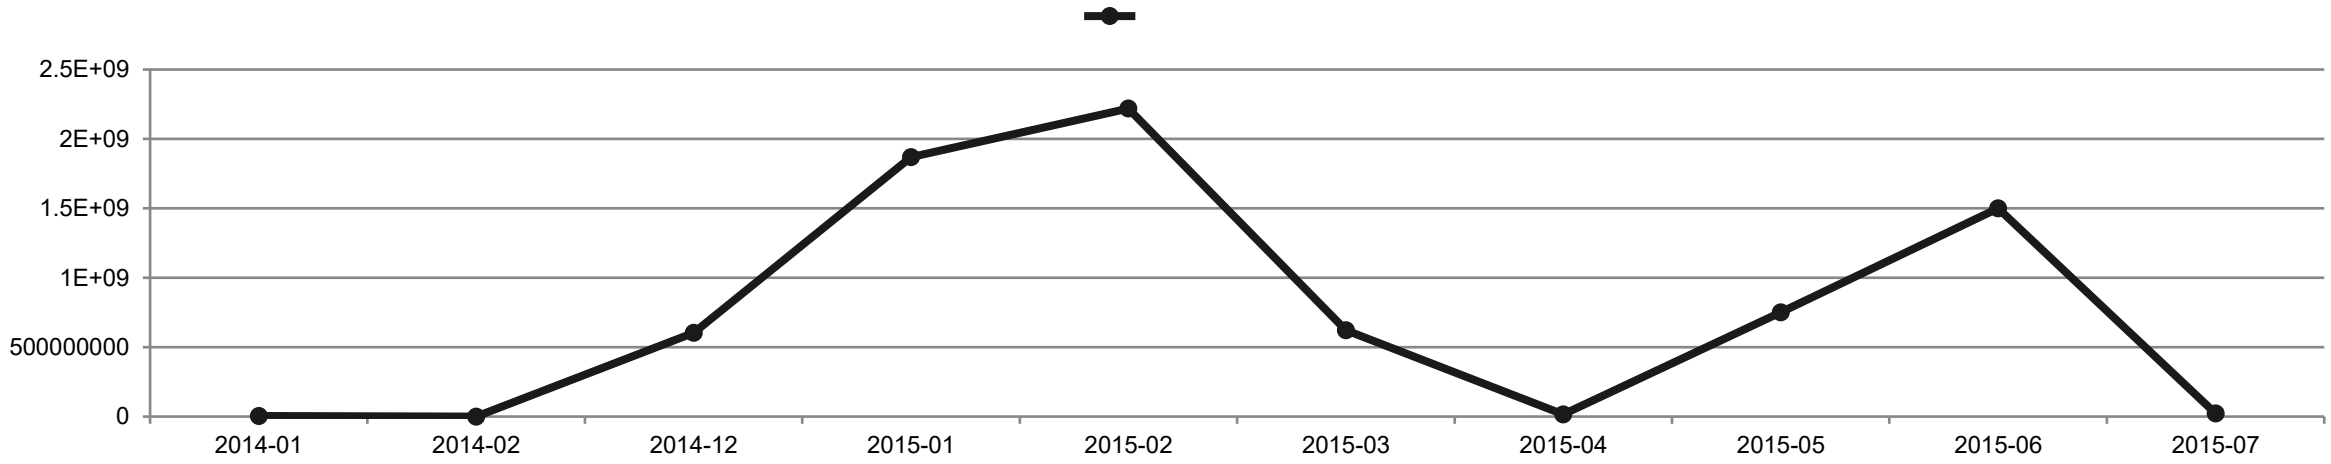


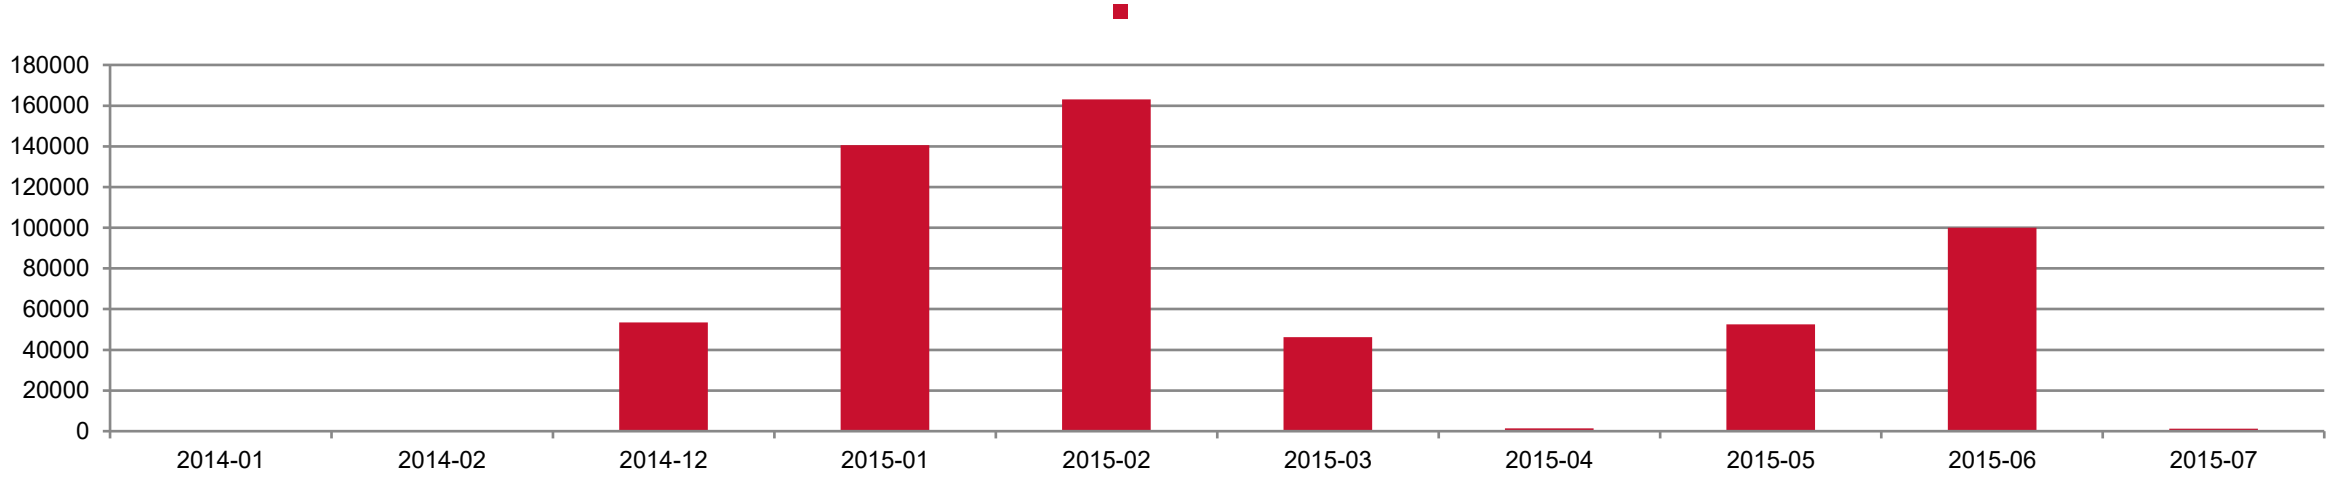
Transmission Mix (units)



Trends Over Time

Monthly revenue and units sold across the analysis window





Recommendations

01

Double down on top-3 brands

Prioritise inventory, marketing spend, and dealer training around the brands that already drive the majority of revenue.

02

Tighten pricing vs MMR

Average margin sits at -15.1%. Introduce minimum-margin guardrails per tier to stop sales below benchmark wholesale price.

03

Expand in lead regions

Open or upgrade dealerships in the top revenue regions; pilot targeted campaigns in mid-tier regions with rising volumes.

04

Reposition high-mileage stock

Average price drops sharply above 100K miles — bundle warranties or trade-in offers to defend price.

05

Promote SUV / Sedan mix

Body-type revenue concentrates in a few segments — align procurement with proven demand, avoid slow-moving body styles.

06

Refresh dashboards monthly

Adopt the Power BI dashboard delivered with this report as a single source of truth for the Sales leadership team.
